

PolyFence::PolyFence

```
graph LR; A[PolyFence::PolyFence] --> B[PolyFence::calculateFenceConstants];
```

The diagram illustrates a call to the `PolyFence::calculateFenceConstants` method from the `PolyFence::PolyFence` constructor. A grey box on the left contains the text `PolyFence::PolyFence`, and a white box on the right contains the text `PolyFence::calculateFenceConstants`. A blue arrow points from the grey box to the white box.
